 - **Tools:** jQuery, Express, React, NodeJS, Handlebars, Bootstrap, Photoshop
-

PROJECTS

Snippet | <https://github.com/ma-wong/project-3> | <http://www.snippet.ltd>

Created a web application that acts as single organized code library where users can search for publicly submitted snippets of code or create and store their own for later reference.

- Collaborated with a team of four through all stages of production, prioritizing wire framing, coding, and debugging.
- Deployed MVP in less than two weeks working completely remote, using Zoom and Slack
- Designed and built modular React components for code search, landing, and details page using various third-party packages such as Highlight.js, Cloudinary, and Passport.
- Modeled code snippet storage and user comments in a MySQL database.
- Wrote Node and Express APIs for code search results page and details page.

Icebox | <https://github.com/ma-wong/icebox> | <https://infinite-castle-57105.herokuapp.com/>

This is an online encyclopedia for shoes that stores information regarding the collaborators, release date, size range, current price, brand, etc. and allows users to discuss the products through reviews and comments.

- Worked with a team of five to design, code, and deploy MVP in one week
 - Wrote Sequelize APIs in Node and Express with a MySQL database.
 - Implemented home, search, and product pages using jQuery.
-

EXPERIENCE

Front-End Web Developer - 1/2020 to Present

Archie's Ice Cream, Tustin, CA

- Complete overhaul and redesign of Archie's Ice Cream Website using Squarespace.
- Restructured page layout and corrected errors from previously existing website, improving overall functionality by 50%.
- Trained client on Squarespace UI to ensure website sustainability.
- Designed custom graphics/logos using Photoshop and Procreate.

Account Advisor - 5/2019 to 12/2019

UCI Inc., Irvine, CA

- Aided the development of small businesses by focusing on back-end solutions in different major industry segments.
- Facilitated discussion of business needs and how our alliance partners' products could fill those needs.
- Generated more business leads and sales during my tenure than any other employee in my class or in recent history.

Photography/Sales Lead - 11/2018 to 5/2019

Image Postcard, Anaheim, CA

- Managed and trained a team of six on effective photography and editing techniques, increasing sales by 40%.

- Used Photoshop to perform light and color balance for final images.
- Curated personalized photo packages to clients in a thorough and timely manner.

Product Specialist - 6/2017 to 11/2018

Apple Inc., Newport Beach, CA

- Connected with individual customers and enterprise-level clients to provide curated desktop and mobile product solutions.
- Engaged with customers to develop a multifaceted ecosystem for personal and business needs, paired with correlated software solutions, creating a technological foundation for customers to expand on.
- Assisted in creative workshops to provide customers with a wide spectrum of skill sets to fully engage with Apple products, in-house software options such as Final Cut Pro, as well as with expansive third-party options such as Procreate for iPad Pro.
